

## DATA SHEET

- The "Charge on the Move" battery charger was developed by Bren-Tronics for the U.S. Dept. of Defense with the intention of allowing the complete charging of several different types of C<sup>4</sup>I batteries while the vehicle is in motion over any type of terrain. This new development also increases the logistic proficiency of the military unit by allowing it to remain in the field for longer periods of time. The COTM charges two (2) batteries at a time and holds another two (2) ready for charging. When the first two batteries are fully charged, it automatically switches to charge the

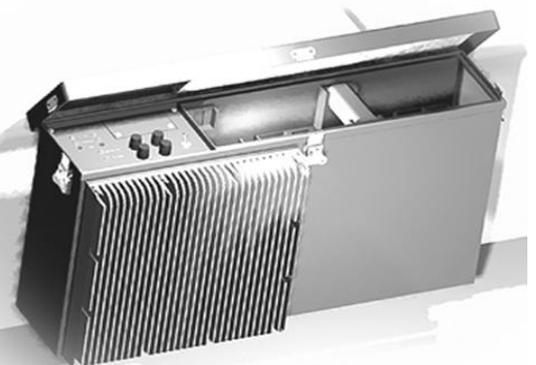

<i>Description</i>	Vehicle Mounted, Rechargeable Battery Charger
<i>National Stock Number</i>	6130-01-467-9465
<i>For Use with</i>	C <sup>4</sup> I series of Rechargeable Batteries
<i>Power Requirements</i>	85 to 132V , 170-265V AC, (47-63 Hz), or 24 Volts DC
<i>Nominal Dimensions</i>	Length: 24.650" (626.11mm) Width: 5.250" (133.35mm) Height: 12.812 (325.42mm) <span style="float: right;"><i>Nominal</i></span>
<i>Weight</i>	32 Lbs. (14.5 Kg)
<i>Connector/Contacts</i>	Assorted, to meet battery requirements
<i>Case Material &amp; Color</i>	Heavy duty aluminum, Olive Drab #34088
